Dear Manfroni,

I hope this letter will find you and all your dear ones in very good health.

As you will see from the above address, I am now stationed in Germany.

I have recently been to England for 28 days repose with my family, and I did of course meet and speak with Mrs. Betts.

And I was very pleased to be able to tell Mrs. Betts, all that I know about the happenings at Venturolo. Also Mr. Betts said you have written and told him, the graves are being cared for, thank you. Mrs. Betts is very

pleased to know, her son is buried in a proper cemetery. Perhaps in a year or two's time, when you are able, you could take some

photographs of the cemetery and of the graves. I am sure, we would all appreciate it very much. I must finish this letter now, I once again assure you, we all, Family and friends, think a very lot of you, and thank you.

I am your sincere friend

Dennis Lovell.
